WHAT IF?

This Session is Really Good Fun?

During this Session Someone's life Could Change Dramatically?

That Someone Could Be You?

You have the Power to Change?

Change is Easy?

Any Obstacles Are Removed?

You Could do Whatever You Want To?

This is the Moment Everything Starts Turning Out Right?

Today is the Day?

BACK TO SCHOOL?

Take five minutes, do not consult anyone and draw a school!

THE BEST YOU

Take a deep breath

As you let it out feel yourself relax

Again, at just the right time for you

From the top of your head to the tips of your toes

Feel yourself really relaxing

As you really relax deeply, in just a moment...

See yourself at a happy time, when you're at your best, a time you're feeling really good

Feel what you felt, see what you saw, hear the sounds you heard

Allow yourself to experience the experience, really feeling good

And step into that you, feeling really good

Breathe deeply and rediscover all these sensations, as oxygen is absorbed within you

Hold your body confidently, like a hero, feel the feelings you feel, hear the sound of your powerful voice, see how you look

And, as you you're feeling good, powerfully confident, push your thumb and ring finger together, you're feeling great

Feeling really good?

HOW DOES A HUMAN BRAIN WORK?

Think of the most advanced computer imaginable

Then think more powerful, much much more powerful

Virtually everything in this room, building even, was once a figment of somebody's imagination

Your senses are like the input system keyboard, mouse etc

Your conscious mind is what is on screen

Your subconscious mind is the operating system, the power behind the scenes which drives all the programs and functions

You also have a 'critical factor' which is like a Firewall which protects information from getting into your subconscious

WHO'S YOUR HERO?

Working in pairs I'd like you to get together and think about heroes, people who:

You look up to

Admire

Inspire you

Respect

Think highly of

From any walk of life, famous or otherwise,

then explain to your partner what particular trait you admire most, why is your hero a hero? What are the factors, traits, qualities that appeal to you?

Let's make a list!
